CATALOGUE
Spring 1955

A Word To Our Customers:

This year, CONNER & AMOS is making a great effort to increase the length of the planting season on many items. In the past certain plants could only be planted while in a dormant condition. Included in this group are the ornamental trees, flowering shrubs and fruit trees.

These plants are now available growing in large containers. They will be sold at the same prices as listed elsewhere in this catalog, plus a straight seventy-five cents potting charge.

We feel that this service will be of great advantage to our many fine customers. It will now be possible to purchase these plants while in full bloom and have them planted in your yard. They need not be planted immediately when purchased, but may be cared for as any potted plant until it is convenient for you to set them in their permanent locations.

VINES AND GROUND COVER PLANTS

The following vines and ground covers are among the most desirable varieties for this section of the country. Only recently has the importance of vines and ground covers in the landscaping picture become recognized. Let us suggest a neat ground cover for that hard to mow bank.

Ajuga genevensis**BUGLE**

A good, vigorous plant growing six to eight inches high. Dense spikes of blue flowers in May and June.

Heavy Clumps, \$0.45

Cleastrus chinensis**CHINESE BITTERSWEET**

Rapid growing shrubby vine. Orange fruit opening to expose red seeds in fall. For heavier fruiting, use more than one plant.

SHADE TREES

Trees occupy, by far, the greatest place in our landscape. Everyone knows the value of shade trees and they may be regarded as a permanent investment. Select them with care.

The caliper measurement is taken at a point twelve inches above the ground.

Our customers are invited to visit our nursery on Route 17, near Winfield and select their trees for future planting.

Prices do not include planting except where stated.

Acer platanoides

NORWAY MAPLE

Most popular for street planting. Dark green foliage. We have a few trees of various caliper. Prices same as for Sugar Maple.

Acer platanoides schwedleri

SCHWEDLER MAPLE

Purple leaved form of Norway Maple.
